▶ All About Us!

Childspace Learning Centre's program philosophy is "Children Learn By Doing".

We believe that creating hands-on opportunities help for children helps them to explore, create, learn and discover! We create programs for children that encompass all areas of their development: social, emotional, cognitive, physical, fine motor and creative. We provide age-appropriate learning activities that stimulate children's natural curiosity and love of learning.

All preschool teachers at Childspace are Early Childhood educated, with current First Aid Certification and Police Security Clearances.

Childspace is licensed with Calgary Rocky View Child and Family Services, regulated by Calgary Regional Health Authority, Calgary Fire Department and City of Calgary Community and Child Care Standards. We dedicate ourselves to surpassing the expectations of both our licensing bodies, and the families we serve.

Preschool Programs

Our preschool was designed exclusively! We incorporated the best of pre-school design, with a 'Quiet Room', messy play area, separate boys and girls washrooms, water fountain, coat room and heated floors for children's comfort. We have a one-way mirror for observing children, and our own outdoor play area. All toys and equipment are 'child-friendly', and chosen to promote positive interaction.

The Toddler Program is a "pre" preschool program, un-parented for children from 18 months to 2½ years. Preschool 1&2 is perfect for ages 2½ to 3½. All preschool programs incorporate songs, stories, finger-plays, sensory play experiences, two art activities daily, co-operative toys and games, teacher directed games, outdoor play and a snack time. The Junior Kindergarten Program incorporates calendar, weather, letters & numbers, math and science concepts, field trips and class visitors, along with the regular programming.

Professional Attitude

We take our job seriously; caring for young children is an honored profession. We are active Executive members of the Calgary Preschool Teachers Association, attending workshops and conventions to further our professional development.

We are also a training facility for Mount Royal College, mentoring Early Childhood Care and Education students within

our program. We continue to find ways to enhance the learning and development of our staff, so that we can offer only the best to the children in our community.
